(User requests)

OUTPUTS (AI Responses)

Yes!

Here is a poem...

OUTPUTS (AI Responses)

security-packet

by: Kevin McCallister

BEWARE OF

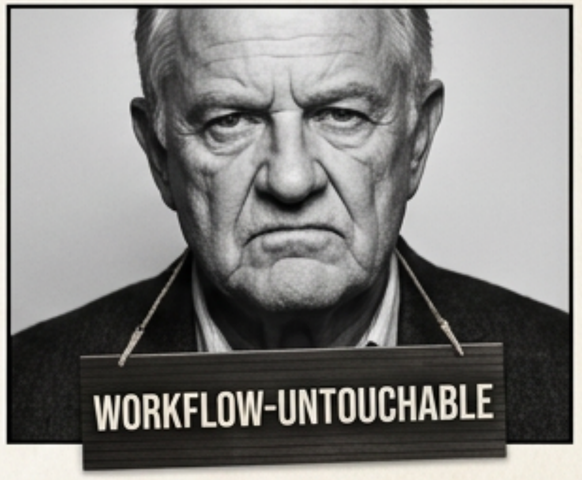

TREATING EVERY EXPERIMENT AS A DELIVERY COMMITMENT

PUNISHING FAILED EXPERIMENTS

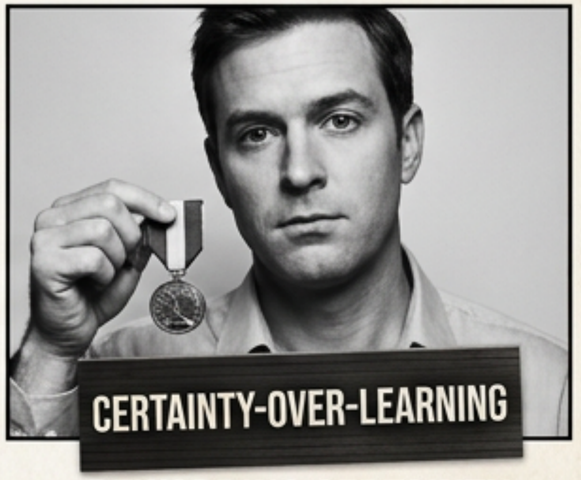

SCHEDULING EVERY SPRINT AT FULL CAPACITY

TREATING EXISTING WORKFLOWS AS UNTOUCHABLE

ENFORCING RIGID ROADMAPS AND DEADLINES

REWARDING CERTAINTY OVER LEARNING

DO NOT REWARD

These habits are rigid and destroy value. Beware of them.

Thank You

Marek Grác, Red Hat <mgrac@redhat.com>
